Tablets & Accessories

Elevate your tech game with our range of tablets, screen protectors, and clear covers. From compact 8" tablets to versatile 2-in-1 devices, our trolleys can handle them all, stacking up to 18 tablets in a single box!

Charging

Our trolleys boast high-quality fast charge braided USB-C cables, paired with lightweight built-in chargers delivering up to 2.4Amp per port. Need more power? Custom PD chargers are at your service!

Edge Server

Take control with our optional custom micro server, packed with remotely maintainable software. It's your offline web server, always ready to serve!

Battery Backup

Power up for the long haul with our 18 amp hour lithium-ion battery backup. With 216 Watts of juice, your LTE router and micro server (if included) will stay powered all day long!

Connectivity

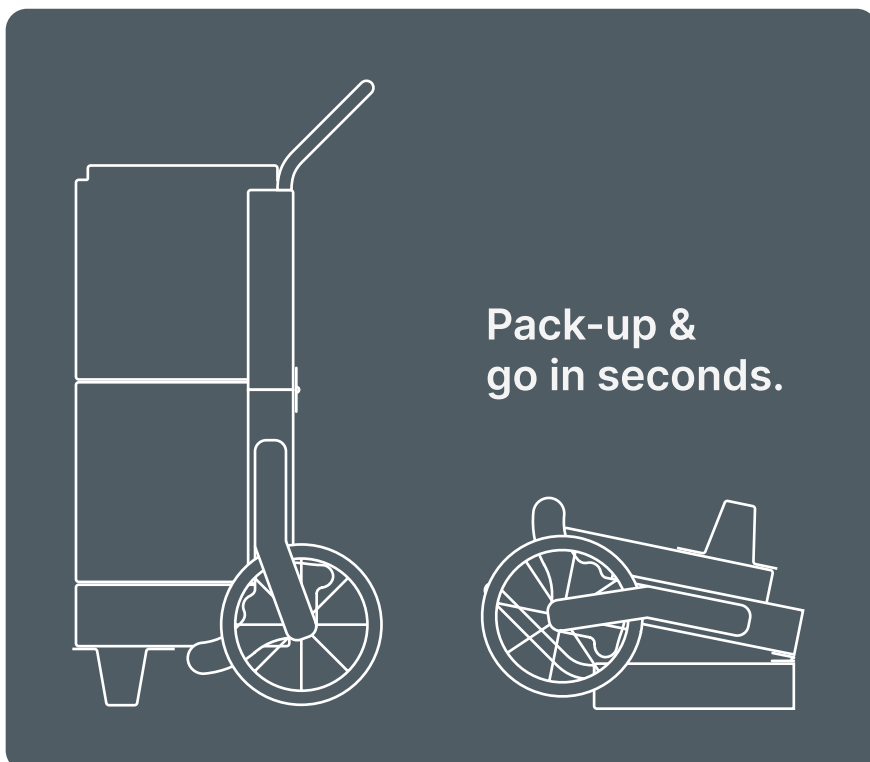

Stay connected wherever you go with our MikroTik LTE6 WAP, offering lightning-fast 2.4GHz & 5GHz WiFi. Whether it's local fibre or LTE, our trolleys keep you online with dual-band WiFi networks, perfect for streaming in real-time!

Configuration & Support

Sit back and relax as we handle everything from Wi-Fi setup to firewall configurations. Worried about security? We've got you covered with secure remote configuration and Mobile Device Management (MDM) software for hassle-free content management!

Built to withstand the toughest environments.

**Go mobile,
stay agile**
